SO WE NEED A LAPTOP ACCORDING TO OUR NEEDS AT JES!

PITCHING BY HASAN

Intended Use

- Graphic design (Adobe Photoshop, Illustrator and Canva) ↗
- Video editing (Premiere Pro, CapCut, DaVinci Resolve) ↗
- Content creation ↗
- Work (excel, word, sheets, powerpoint and research) ↗
- Multitasking across multiple applications ↗
- Kind of everything we do at JES should handle promptly ↗

Performance Requirements

To meet our needs, the laptop must have:

- **Processor:** Ryzen 5 at least / or Intel i5 or higher
- **RAM:** Minimum 16GB (for smooth performance)
- **Storage:** 512GB SSD At least
- **Graphics:** Integrated (minimum) / Dedicated GPU (ideally better)

Second-Hand Option (Better GPU Performance)

Alternative Approach: Refurbished / Black market Laptops:

- If we consider buying a second-hand laptop
- It can include a dedicated GPU which is significantly better for:
  - Video editing
  - Rendering
  - Graphic-intensive work

THAT’S IT!
